

February 10, 2016

Leslie Infalt  
In-Position Technologies  
131 South Weber Drive  
Chandler, AZ 85226

Dear Leslie,

As a result of your 1<sup>st</sup> Surveillance #14-2227-1, PRI Registrar is pleased to inform you that the Quality System of In-Position Technologies has been verified in continued conformance to ISO 9001:2008. Since no nonconformances currently remain open, registration is without conditions.

The PRI Registrar Website [www.priregistrar.org](http://www.priregistrar.org) holds valuable information so we suggest that you visit often. From our homepage select the EQM Client Login tab in order to log into your organization's record. Here you can find information related to the Appeals Process, standard conformity and proper use of the certificate and Logo mark(s). If you need reminded of your Login/Password, please call Dina Rigot at 724-772-8682 or Cell 724-831-7424.

As you may know, the new ISO 9001:2015 standard was officially released September 15, 2015. **All** ISO 9001:2008 clients that have expiration dates beyond September 15, 2018 will receive a **revised expiration date of September 15, 2018**. This date reflects 3 years from the issuance of the ISO 2001:2015 standard. Although this does not impact your current expiration of February 9, 2018, the Reassessment audit will receive the revised expiration date. If AvaLAN Wireless Systems, Inc. is planning to upgrade to the new standard at the time of Reassessment, the expiration date will not be impacted.

Electronic Logos will be sent to your e-mail address upon request.

*Please be advised that all reports/documents relating to this audit are now located in the "Attachment" area of our EQM system under this audit number. These are for your use and are to be considered the final documents.*

Sincerely,

Dina L. Rigot  
Process Specialist, Registrar Operations  
PRI Registrar
